Armoured Modular Vehicle

Patria AMV 8x8

TECHNICAL DATA:

Dimensions

Length	7.7 m
Height over hull	2.3 m
Width	2.8 m
Track width	2.5 m
Total Combat Weight	26 000 kg

Performance

Max. speed	>100 kmph
Climbing capacity	70 %
Side slope,	40 %
Obstacle	0.7 m
Trench crossing	2.1 m
Swimming	6-10 kmph
Fording	2.0 m
Operating radius	600-800 km

Protection

Modular ballistic protection system up to 30 mm APFSDS and mine protection kits effective against blast mines of up to 10 kg according to customers' requirements.

Engine

Power output	405 kW
Torque output	2 090 Nm

Transmission

Automatic	7 + 1 gears
-----------	-------------

Driveline

Driven axles	All wheel drive
Tyres	14.00 R 20 with run flat devices
Brakes	hydraulically operated disc brakes with ABS

Mission equipment

High payload and large internal volume make it possible to carry weapon systems, such as: Small calibre weapon stations, Medium calibre weapon systems, 120 mm mortar systems, 90 and 105 mm turrets, AT or AA missile systems. Vehicle can be equipped for special missions, such as: ambulance, C4I, workshop, etc.
